

# DairyComp

**MANAGE YOUR HERD EASILY AND EFFECTIVELY WITH THE WORLD'S MOST ADVANCED HERD MANAGEMENT SOFTWARE**

DairyComp is the dairy industry's most advanced on-farm dairy management software program. DairyComp does its job faster, easier and with more sophistication than any other program. DairyComp has the tools necessary for tracking all cow information, provide daily tasks needed and detect problems before they have consequences on the herd. Pocket CowCard is a handheld application that puts the power of DairyComp in the palm of your hand. With Pocket CowCard (PCC), your staff has access to animal records anywhere they go. Immediate access to current information means better decision making.

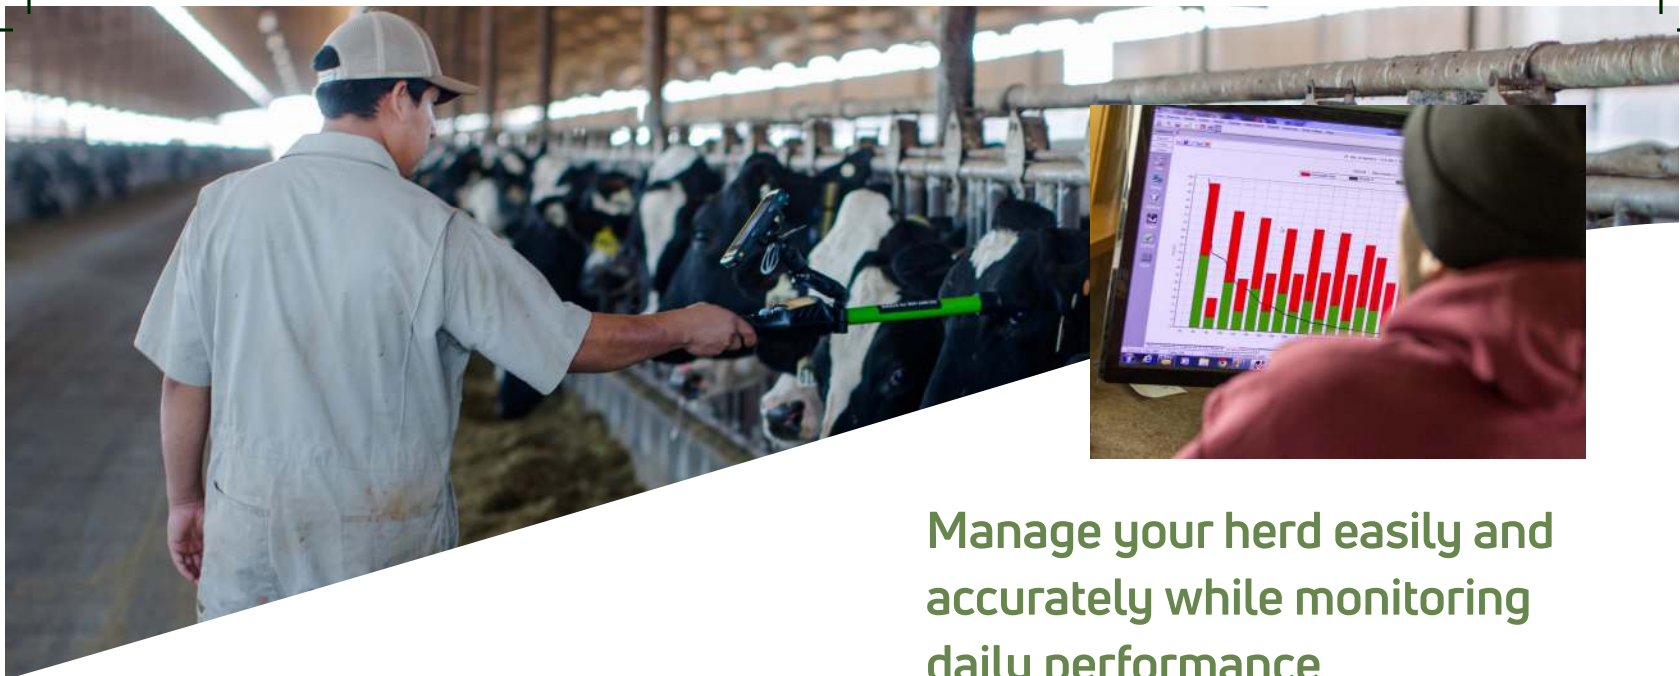

DairyComp available on the VAS Platform

- ✓ Increase accuracy of data
- ✓ Increase reproductive performance
- ✓ Increase protocol compliance
- ✓ Decrease data entry time
- ★ Healthier animals and increased profits

*"We were an early adapter of DairyComp 305 and have been using it on our Dairy for over 25 years. It is the dairy management software of choice for all my consultants that I have on my team. There does not have to be any massaging or interpreting of numbers to get them in a format that they are used to seeing. I can't imagine managing my dairy without it."*

*Mike Larson, Larson Acres, Evansville, Wisconsin*
